## **Preface**

**Starting Steps in Grammar** is a two-book series for junior A and B classes.

The most basic language points and structures are presented in a very simple way, and then practised through a variety of innovative exercises. The careful step-by-step approach to the grammatical phenomena employed, makes children feel self-confident, and they gradually develop a good command of the language.

These books can be used on a parallel basis either with the **Start Now** series or any other coursebook for this level, as the grammatical contents can easily be matched.

It is suggested that pupils should begin **Starting Steps in Grammar** about two months after starting the coursebook.
